

# Faith

*Faith is revelation (God's word becoming Rhema: Romans 10:17), combined with inward evidence (believing it in your heart: Romans 10:9-10), combined with obedience (acting out on it).*

Ephesians 2:8-9 Faith and Grace are both gifts of God

1. Faith comes by hearing God's word one way or another
2. Grace comes through humility

A deeper look at faith

1. Faith is believing God before seeing something in the natural (Heb 11:1)
2. Faith combined with patience causes someone to enter their promise land
3. Faith is stubborn
4. Faith needs to be in God, not our works or our faith

*Seek revelation and truth while remaining in faith to move into your individual promise land where your life lines up with the promises given to you in God's word*
