

Things that concern me

It is so vitally important that you replace what satan has had in your life. That is why I am persistent about the 5 Graces to the gentile church. Where there has been defilement, there needs to be cleansing. Where there has been curses, there needs to be blessings. Where there has been demons, there needs to be the infilling of the Holy Spirit.

Make sure that all supernatural happenings in your life, that God is in control. Satan does offer counterfeits, but we are to not be afraid, but we are to test the spirits and use Biblical wisdom. If we know the genuine, we can recognize the counterfeit.
