As I studied the Bible intensely over several years and spent thousands of hours in prayer, these books were also a great blessing in my life. The Holy Spirit took me into the school of the Spirit and taught me so much. There are several other books I am not listing, but these are the main ones that impacted my life. This work was done over a ten year period of time. I was very blessed to have been in seclusion for extremely long periods of time that I could spend with the Lord in prayer, Bible study, and research. Leonard Ravenhill once said, "if you pour all the ingredients of Christianity into a funnel, what will come out of the bottom is obedience." These books can help you grow, but truthfully we must have a relationship with God for ourselves and not depend on the relationship of others to keep us. We need to have a strong prayer life, read and study the Bible, be a witness to those around us, and walk with the Lord like Enoch did. I just wanted to give you some recommendations for study on your own. Some complain that they are not getting enough at their church, well God may have you there to be part of the solution, not part of the problem. It is our personal responsibility to grow in the Lord. Do what I have mentioned about prayer, Bible study, and use these books to grow on your own. Stay fully submitted to spiritual authority and pray for leadership. Let's find out our calling and move into our destinies.
